## Hydraulic fish systems

### LANTEK HIDRÁULICA

Stand D74h

Lantek Hidráulica supplies hydraulic fish systems for purse seine and gillnetting vessels.

Products and services include:

Triplex AS Net Hauling System: The company manufactures and delivers purse seine hauling and stacking equipment for all sizes of purse seine vessels.

Triplex has developed new models of the famous three roller net winch and today has six models with pulling power from 3-50t. Triplex also supplies automatic net stacker cranes with rollers.

Rapp Hydema Syd automatic and semi-automatic hauling equipment for gillnetting and longlining: The product range contains net hauler, power blocks, line haulers, winches and pot hauler.

Pullmaster winch - from 500-30,000kg pull: Most of the company's winches are installed in tuna vessels around the world.

Bow thrusters: Thrusters are supplied from 50-500hp, for all kinds of vessels.
